

How to use bitcoin

App Store

Google Play

1. Download an app

Bitcoin is an open network and there are many applications (aka “wallets”) that allow you to receive, send and store bitcoin.

To get started, the **Wallet of Satoshi** app is simple and easy to use.

2. Create and backup wallet

Backup the wallet via the menu at top right, click **Login** and enter your email address. Enter the 2 words you receive by email to confirm. If you lose access to the device, you can **restore** the wallet with your email to recover funds. Set currency to GBP from menu at top right.

3. Create invoice

Press the **Receive** button to generate a new invoice, or set the amount to receive by pressing ‘Add Custom Amount’.

You can define the amount in Pounds or Sats and get price conversions in real time.

4. Receive bitcoin

Show the generated QR code for the customer to scan.

Once paid by the customer, your wallet will notify you that the payment has been received.

Payment via **Lightning** is immediate.

What is bitcoin?

Bitcoin is a commodity money, a digital version of gold, launched in 2009. It is native to the internet and, like gold, does not require 3rd parties to transact. No banks, no governments, no owner and also no borders. Bitcoin is a global, decentralised and censorship resistant payments network. It has a fixed supply which means the end of monetary inflation.

When you receive Bitcoin you are receiving an asset, not someone else's liability, aka debt.

Why Accept Bitcoin ?

Increase footfall and **revenue** by accepting Bitcoin.

Bridge2Bitcoin will help you **target**, for free, the small, but growing, **Bitcoin community**.

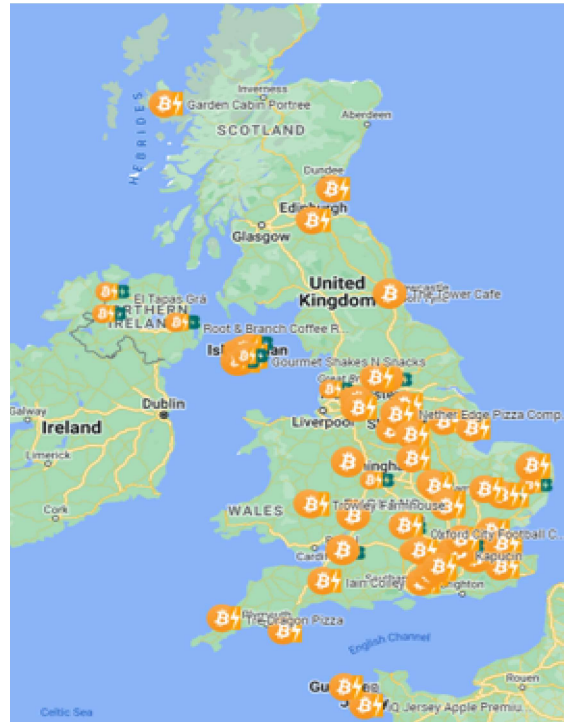

You can still **bill and receive in GBP**, but the technology allows the customer to pay with Bitcoin. You can also keep the Bitcoin if you wish, but that is a bigger decision we can help you with.

Bitcoiners are an active and loyal community who will **support businesses which accept Bitcoin** payments. The community is very active on Twitter and there are many regional meet up groups across the UK making it straightforward for us to drive Bitcoiners into your business.

Bridge2Bitcoin maintains and promotes **the map** opposite (<https://bridge2bitcoin.com/spending/>) to these audiences, including tweeting out when new merchants start accepting Bitcoin for payments.

You can **gain new business with no risk and no cost** from this free affinity marketing simply by starting to accept Bitcoin.

Put your business on the map

What do I need to do ?

To explore and **choose the best option** for your business, get in touch with UK based **Bridge2Bitcoin.com**. We have local contacts who can provide advice and support. Your business will **benefit from UK wide publicity** by accepting Bitcoin. The Bitcoin community will **generate additional revenue** for your business. We will also add you to the **global map** of Bitcoin merchants (<https://btcmap.org/map>) so that travelling Bitcoiners can find you, **especially useful for hotels**.
